

Country Report on Islamisation: Italy

THE SHADOW OF THEOCRATIC TOTALITARIANISM HOVERS OVER ITALY AND OVER EUROPE AND IS IN DANGER OF WINNING THE WAR DECLARED ON US

Italy and the Italians are going through dark times. We find ourselves in a period of crisis, which has lasted several years now because of the lack of willingness to integrate of "self-appointed Muslim representatives" who have no desire to cohabit with us but rather want to implement a political project, which they have planned over many years.

For us western democracies THIS the main problem:

If in Islam society, politics, culture and religion, are all one, how can we live in harmony with a muslim system that wishes to islamize all aspects of life?

This political plan has already produced in Italy a series of small manifestations of intolerance towards Christian religious symbols, which have offended many Christians (who have not however retaliated by burning mosques or killing imam) Here are 3 examples:

In January 2006 Adel Smith began his battle against the crucifix, calling it "a cadaver" and demanded it be removed from the wall of his sons' school. Not content with that, he throws out of the window the crucifix from the wall of the hospital ward where his mother was being treated together with two other Christian patients, who protest at his actions. Adel Smith is fined and sentenced to 6 months jail.

21/08/07 a Muslim immigrant in the district of Casatenovo (Lecco), concreted up a wall chapel containing the statue of the Madonna, symbol of the whole, small local community. He was interrupted by two elderly ladies of the neighbourhood, who demanded that he hand over the statue of the Madonna. The police were called and the mayor insisted that the wall chapel be restored, but by this time the statues of the angels had been destroyed.

02/09/07 in Afragola, an illegal Muslim immigrant beheaded two statues of Padre Pio.

In the schools, muslim girl children begin wearing the veil at a very tender age and when they arrive at puberty they disappear from sight and no longer hang out with their Italian friends. If by any chance they choose an Italian fiancée, he or she is obliged to convert to Islam before the marriage is permitted.

In Milan, an Egyptian /Arabic school was opened, contrary to all current regulations, to provide an islamic education to muslim children. The result was:

26/06/07 - In the Arabic school in Via Maniago, only 10 pupils showed up for their examinations, nearly all of them veiled females. Their knowledge was practically nil, especially in history. For them, wheat was introduced into Europe by the Arabs, Anne Frank died in Israel, they had never heard of Christopher Columbus or the Pope, and so on.

We now hear demands for separate beaches and for the restricted use of swimming pools, and calls to consider Friday the festive day for Muslims, intentionally forgetting

that in all the Islamic countries, only three adopt this and that in the West it would be impossible, and would create tremendous economic damage. Demands are being made for 5 pauses for prayer during study and work time, which interrupts the rhythms of all the other workers, and damages the freedom of study and work of the Italian population.

Reports of maltreatment of women dominate the newspaper crime reports. These are the ones that come to the attention of the public, but we know that the tragedy of Muslim women segregated at home and subjected to ill-treatment is much more widespread. Their Calvary begins when they arrive in Italy. They are isolated from the indigenous population, are not sent to school, do not learn the language and therefore they cannot communicate with us and cannot ask for assistance

HERE ARE SOME NAMES OF MUSLIM WOMEN AND THEIR TRAGEDIES:

- **Killed: KABIRA - SOUID - SOUAD - DARIN OMAR - SOBIA - AMINE – HINA SALEEM - FATIMA SAAMALI - AMEL - MALKA- FATIMA KSIS - BOUCHRA**
- **Survivors of serious ill-treatments: SAMIRA - An ENTIRE FAMILY, ULLAH 48 years old from Bangladesh, the entire family subjected to a regime of tortures and scalding with the hot oil because not submissive enough and faithful to her prayers.**
- **FATIMA - FATIHA - AMAL - HALIMA - AMINE - NAIMA - SAMIRA - GAMEL**

Now the construction of mosques has become an emergency, they expect them as an urgent need and there is not one Italian city that is not affected by this problem. The projects are numerous and all are huge. They are not simple mosques but Islamic Citadels, catering to their needs from birth to death, separating them from the Italians. **The main problem is that these Centers are under the influence of UCOII (Unione delle Comunità e Organizzazioni Islamiche in Italia), whose president Nour Dachan and its former-secretary Roberto Piccardo – on 7 February 2007, were investigated for "incitement to ethnic and religious hatred" and "apologists of terrorism", a charge levelled against them by two parliamentarians from the party FORZA ITALIA. Malan and Stracquadanio. They were at the time being investigated for links between Ucoii and Algerian and Moroccan Salafist terrorist cells**

Meanwhile, our Government negotiates with these people and entrusts important issues to them, for example:

The Home Secretary, Giuliano Amato wanted them involved in the alteration to social rules and laws. They refused to sign the document unless they were given 52,000 sq.mt of land in order to construct their Muslim citadel in Bologna.

On 11/07/07 the Social Security Minister, Paul Ferrero allocates 10 million euro for a pilot project "**Citizenship Laboratory**" for muslim immigrants, one linguistic (Italian language) for women at the **Muslim Cultural Centre attached to the Great Mosque in Rome**, and one for "General Culture and Civic Education" at the **Al Fath Mosque in Via Magliana in Rome.**

Rome, 28 September. From the Minister of Equal Opportunities Barbara Pollastrini, comes a genial, brilliant, theocratic, misogynist idea, already in use in Saudi Arabia. Under her instructions, the Under-secretary of State for Rights and

Equal Opportunity, **Donatella Linguiti**, has convened Muslim Associations and Agencies involved in immigration to Italy "**A Protocol of Understanding against violence towards Women**". 5 associations are involved: three of which are Islamic and run by Muslim males. As well as the Association for Nomads and the organization Plural Males. among the invited are **Ucoii** presided over by **Nour Dachan**, the Muslim Religious Community (**Coreis**) of **Yahya Pallavicini** and the Union of Muslims in the West (**Uio**), **Italian section of the Libyan Wics (World Islamic Call Society) guided from Mansur Tantush. (Ham/AKI)**

30/03/07 – DEMONSTRATABLE PROOFS ON THE PREACHING OF HATRED - ROME - a hidden television camera catches the imam of the Turin mosque, Khohaila, preaching to his followers "not to mix with Westerners", to "stay far away from the infidels" and telling them "to hold women in submission". This is just one of the videos featured in the programme transmitted by Raidue on the enquiry into islamic integration.

1/2/2007 - A courageous inquiry was carried out to discover that in our mosques the niqab, the integral veil, should be imposed by Divine authority and symbolizing the penetration of Sharia, the Koranic law, as part of the islamization of Italy. garnishment comes and that symbolizes the penetration of the sharia, the Koranic law, to demonstrate the islamization of Italy. Two brave journalists, a Somali and an Iraqi, disguised as a couple (she wearing the niqab, he with an untrimmed beard), have risked venturing into the "hot mosques" from Centocelle to Rome, Varese **and Viale Jenner in Milan**, carrying a hidden television camera. It was the imam of this last mosque, Abu Imad, who revealed with the most openness the Muslim strategy of conquest of our Country: "**Their democracy is most useful to us, both as a community and as individuals**. Through our democracy they will gain power and through power they will apply Sharia because it is this that governs Islam.

26 August 2005, at the call to prayer at sunset, the **Muslim preacher of hatred, Wagdy Ghoneim** spoke with the faithful in the mosque of Verona in via Biondani, seat of Ucoii - a Leader of the Muslim Brotherhood, imprisoned in Egypt, expelled from the United States and Canada for terrorism Ghoneim succeeded in obtaining a visa for Italy, at the invitation of Ucoii, holding four meetings in Bologna, Verona, Padova and Sixth Sesti San Giovanni in Rome. Among those taking was **the Moroccan, Moustapha Ben Har**, who repeatedly beat his wife claiming that "the imam has said to us that the women are without spirit. They are only created in order to make children, to deal with the domestic matters and to satisfy the pleasures of the husband. Wives cannot raise their voices. Only the husband can command. If a wife makes a mistake, is normal to punish it. This is the instruction of the prophet ".

Justice is not equal. Special treatment is reserved for Muslims who have committed crimes, for example:

14/06/07 - Wife-Beating? Ok if it is Muslim. Some days ago a Muslim woman of Moroccan origin, has been denied a fast divorce procedure from a violent husband, also Moroccan, already arrested for aggressive behavior. But the judge decided that being of Muslim faith, the woman at the moment of the wedding could know that her religion

admits the use of physical punishments by the head of the family: "disciplinary rights" was defined in the sentence.

29/06/07 - Hina: report of a trial without justice: Acmid, the Moroccan Community Association of the Women in Italy, cannot give evidence at the trial Brescia on Hina's murder. The magistrate of Brescia decision gives this justification for reasons of nationality: Hina was Pakistani, has been killed by Pakistanis, therefore Moroccan women are not involved. But Hina was muslim and has been killed by Muslims, in the name of a radical interpretation of Islam. And the women of Acmid are also muslim.

04/08/07 – Bologna. Fatima – a girl from North Africa, has been repeatedly beaten, tied to a chair and seized from the relatives in order "to punish her" because she had a male Italian friend and for her way of life which was not in compliance with the Muslim culture. The incredible thing is that the court acquitted them, acknowledging the validity of the defense.

04/08/07 - A judge in Turin has acquitted 2 illegal immigrants because they did not possess the money necessary to return to their Country of origin, but they had enough money to leave!

26/05/07 Alexandria, - the Police of Alexandria, arrested two Moroccans suspected of kidnapping, abetting illegal immigration clandestine and attempted rape. A Moroccan girl, entered into a "marriage of convenience" in order to immigrate, But after the married, was held against her will. The woman did not speak or understand Italian, she was not allowed to leave the house and was constantly watched by the husband or his relatives and friends until she managed to escape from the room,

28/04/07 Legalised Poligamy: escaped death by a hairsbreadth - Noale (Venice). When desperation drove the first, Italian wife, to say enough: Claudia, married to an Moroccan of 44 years, Mustafà Mounecif, who a year previously had brought back a second wife from Morocco as is the islamic tradition. She attempted to leave her desperate situation with her four sons as he only financially supported the second wife and young daughter who he had installed in Treviso. A violent argument broke out and Mustapha threw a kitchen knife at Claudia (with a 20 cm blade) which hit his son of 17.

28/11/2006 - Resident of Budrio, in province of Bologna, A young Algerian girl was a victim of a night of hell, when she was discovered in a Bologna discotheque with two Italian boys and a friend. Two Moroccans kidnapped her, sexually assaulted her, robbed her and held her for two hours to teach her a lesson because she spent time with Italians.

27/11/2006 - Rome - First wedding with a Moroccan girl in 1987. In 2001 a second wedding in Egypt. He forced both women to live together. **Najat and Yamna**, Poligamy and violence, then he disappeared with two of the six sons. The first wife turned to an anti-violence centre in order to report her serious physical injuries sustained in vital parts of her body and the disappearance of her two sons. The second wife took refuge in a shelter for women at risk.

These are only a part of all that that is happening in Italy, the cases that have come to the light, but the submerged ones are decidedly more gigantic.
